

## VMAC Recognized As One Of Canada's Best Managed Companies For Third Consecutive Year

Nanaimo, B.C. — VMAC has been recognized as one of Canada's Best Managed Companies for the third consecutive year, as part of a prestigious awards program sponsored by Deloitte.

"We are proud to be recognized as one of Canada's Best Managed Companies again," said Tod Gilbert, President of VMAC. "The global challenges over the past year put our entire team to the test, and VMAC has persevered. We remained committed to our team, the safety of our community and focused on the future. Our people, processes, and products are stronger than they have ever been, and our designation as one of Canada's Best Managed companies reflects that strength."

The Canada's Best Managed Companies award recognizes best-in-class private business leaders throughout the country. While the designation always recognizes resilient, high-performing companies, this year's winners also heightened their focus on cash flow, made employee health a top priority, enabled remote work, and acted with increased purpose and social responsibility.

"This year's Best Managed winners demonstrate the organizational grit required to thrive in these increasingly uncertain times," said Kari Lockhart, Partner, Deloitte Private and Co-Leader, Canada's Best Managed Companies program. "By putting their people first and showing the courage to experiment and take risks, they were able to overcome some of today's most pressing challenges. This year's winners were able to succeed because they weren't afraid to fail."

VMAC has remained fully operational throughout the past year with its entire team intact despite the tumultuous global landscape, while implementing numerous rapid-pace changes to sustain business and keep coworkers safe.

"We are incredibly proud of the stability, security and safety that VMAC provided for our team over the past year," said Gord Duval, VP of Sales & Marketing at VMAC. "We prioritized the needs of our people and their families and, in return, they worked together to overcome every hurdle."

VMAC was also recently recognized as a Best Workplace™ in Canada for the second consecutive year, ranking within the nation's top 20 companies.

VMAC designs, engineers, and manufactures rotary screw air compressors and multi-power systems for the mobile work truck industry. All of VMAC's systems are built in-house at its 40,000 ft<sup>2</sup> headquarters in British Columbia, Canada.
