

FOR IMMEDIATE RELEASE

VMAC PROMOTES STUART COKER TO DIRECTOR OF OPERATIONS

NANAIMO, BC - March 30th, 2017 - VMAC is pleased to announce Stuart Coker has accepted the position of Director of Operations. Responsible for providing leadership and management of VMAC's production, execution and planning of manufacturing operations, the Director of Operations position will empower Stuart to play a vital role in VMAC's journey for continuous improvement.

Stuart began his career at VMAC almost 20 years ago, and has worked in various quality and engineering roles. Early in his tenure at VMAC, Stuart led a team of engineers on a project for Lincoln Electric to develop the Air Vantage 500 which combined the functions of a Welder, Generator and Air Compressor. Prior to this most recent promotion Stuart gained valuable experience in other positions including Quality Engineer and Quality & Engineering Manager. Most recently, as the Director of Operational Excellence, he focused on optimizing organizational efficiency while fostering a positive work environment and maintaining lean methodology.

"Stuart's dedication and ongoing commitment to VMAC for the past 17 years is exemplary", says Jim Hogan, President of VMAC. "We couldn't be happier that he has accepted this role."

"I'm honoured to be given this opportunity, and I look forward to helping VMAC continue to grow and develop with our customers", says Stuart. "We're just beginning our lean journey, and there's lots of opportunity to refine our manufacturing operations even further. Continuing to offer a world-class product to our customers is our number one priority."
