

VMAC Named One Of Canada's Best Managed Companies For Second Year In A Row

Nanaimo, B.C. — VMAC is proud to announce it has been named one of Canada's Best Managed Companies for the second year in a row.

The 2020 Canada's Best Managed Companies program, sponsored by Deloitte, recognizes the country's leading private businesses demonstrating strong strategy and capability, which foster long-term success and sustainable global growth.

"The entire VMAC leadership team is honored to be recognized for a second year in a row for their achievements," says Tod Gilbert, President of VMAC. "VMAC is a lean organization, with the overarching goal of continuous improvement, which extends from our business practices to our products and processes. Being named a Best Managed company for the second year in a row is recognition for our entire organization."

It is challenging to receive the Canada's Best Managed Companies award. Companies cannot simply apply to the program—it's invite-only, and only the most driven, resilient and high-performing organizations are considered. Once invited, companies must complete a rigorous application process. Companies are then benchmarked against other finalists, judged by an independent panel, and only those best-in-class are awarded the prestigious designation of being one of Canada's Best.

"To be recognized for the second year in a row by the Canada's Best Managed Companies program shows the focus our team has put on sustainability," says Gord Duval, VP Sales and Marketing at VMAC. "Our leadership team has developed a winning strategy, which includes investing in our people and culture, leading innovation within our industry, and continuing to plan long-term. This award is something all our coworkers can be proud of."

The 2020 Canada's Best Managed Companies annual meeting will take place in Toronto on April 1st. The event includes a symposium with topics targeted to the unique issues facing Canadian business leaders, and a gala to celebrate the achievements of each of Canada's Best Managed Companies.
