

FOR IMMEDIATE RELEASE

### **VMAC Recognized As A Best Workplace™ In Canada For Second Straight Year**

Nanaimo, B.C. — VMAC has been recognized again as a Best Workplace in Canada for 2021. The list is compiled by Great Place To Work®, the global authority on high-trust, high-performance workplace cultures.

To be considered for the Best Workplaces in Canada list, organizations must first be Great Place To Work certified. Then, employees must complete a comprehensive anonymous survey, and agree over an array of criteria that their workplace is in fact a 'great place to work'. Finally, an in-depth review of the organization's culture is conducted.

"VMAC is honoured to be named one of Canada's Best Workplaces for the second year in a row," says Tod Gilbert, VMAC's President. "The process to be named to the list is unique as it's coworker driven—our team collectively agreed via an anonymous survey that VMAC is a great place to work. This national award is proof that VMAC's success is due to our extraordinary people-centric culture."

In the last year, VMAC has demonstrated an unwavering commitment to coworker health and safety, helping coworkers cope with the global pandemic. Industry-leading health and safety measures were implemented early on, including re-designing workspaces, ongoing work-from-home options, rigorous cleaning protocols, and a focus on coworker mental health support services and education.

"VMAC's ongoing success through these trying times can be attributed to our resilient and talented team of coworkers," explains Gordon Duval, VMAC's VP of Marketing & Sales. "We remain committed to our long-term vision of providing innovative air compressor solutions to our customers, dealers and partners, as a result of our high-trust, high-performance workplace culture."
